

# In-Depth Optics Lab

ERAU Virtual Hub

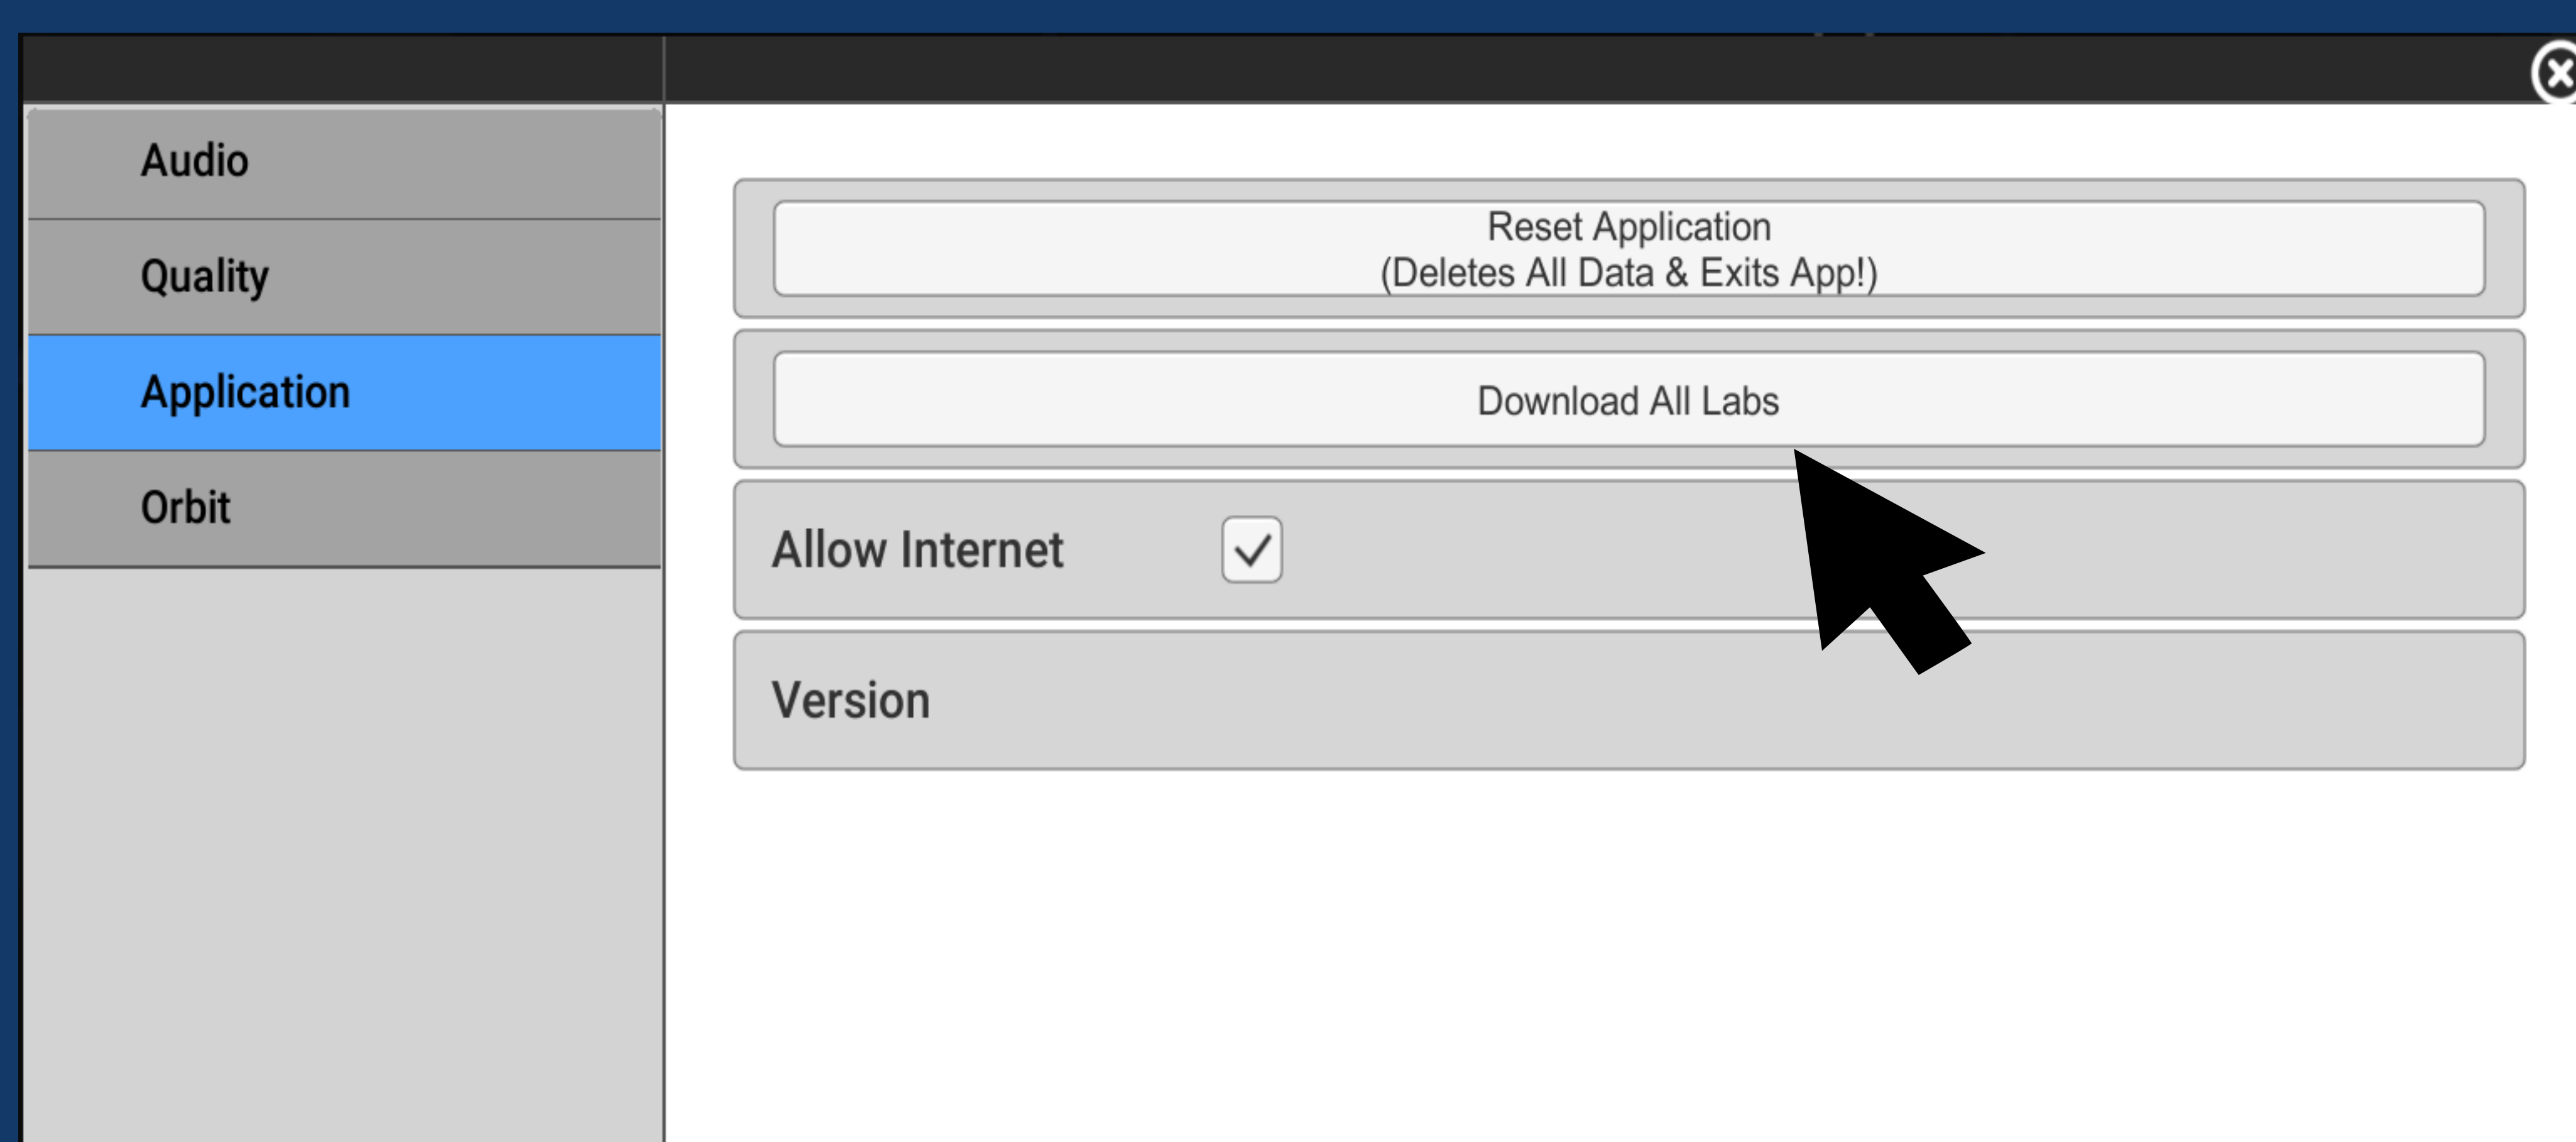

## Recommended for all users

After downloading the lab, click the settings button at the top left corner.

Next under the application tab click the "Download All Labs" button. This will eliminate the requirement to be connected to the Internet.

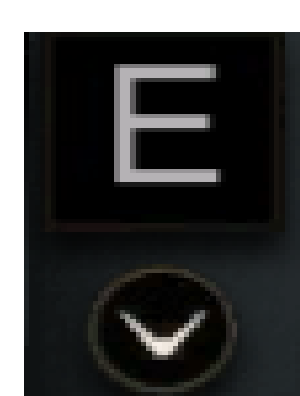

## Entering the Optics Lab

ERAU Virtual Hub

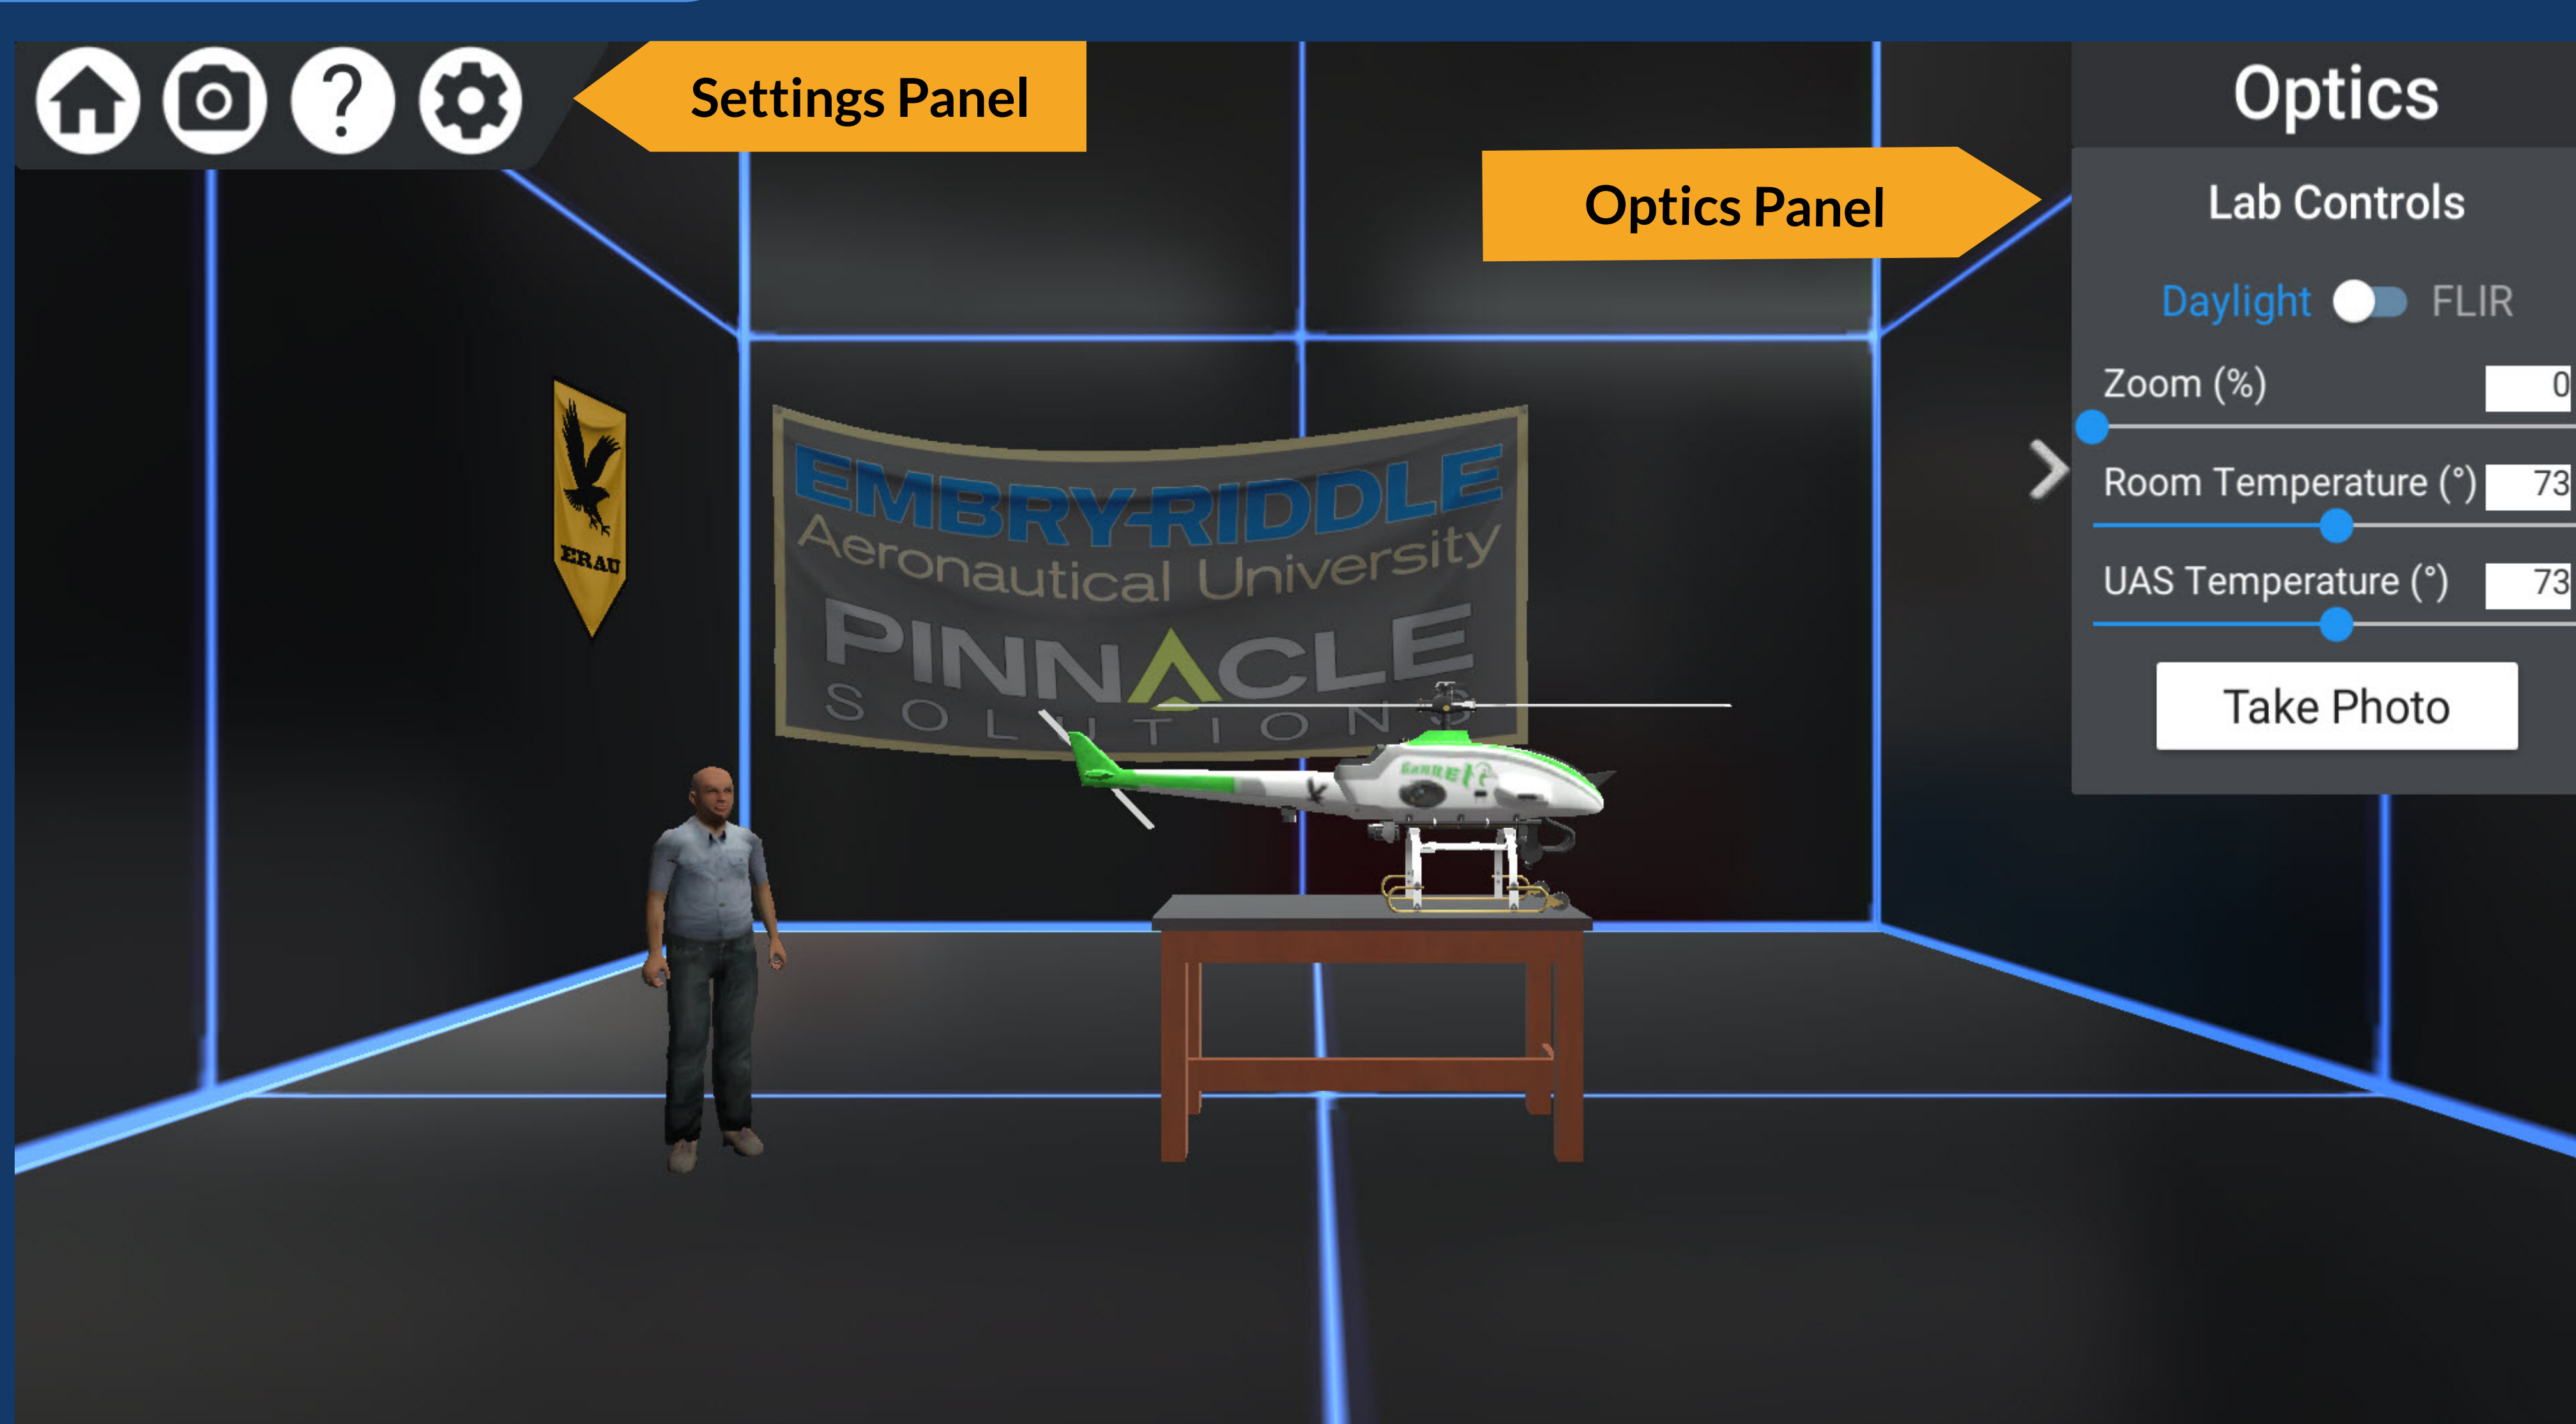

Welcome to the ERAU Virtual Hub

Once you step through the Optics Lab doors, you will be able to test two different cameras which are the daylight and Forward Looking Infrared Radiometer (FLIR).

To enter any door, select the

## Enter the Lab

When you reach the optics lab room, you will see several icons on the top left and the optics panel on your right side.

## Optics Panel

On the right side of the screen, you will find the controls for the optics lab.

Daylight  FLIR

**View Type:** Use this toggle to select between Daylight or FLIR.

Zoom (%) 0

Room Temperature (°) 73

UAS Temperature (°) 73

**Optics Settings:** Use either the slider or text box to vary the settings of the lab.

Take Photo

**Take Photo:** Use this button to take a picture of the room. This photo can be reopened using the camera icon in the settings panel.
